Key Map

Areas Covered by Detail Maps

Legend for Detail Maps

-  River
-  Roads
-  Wetlands
-  Dam on River
-  State Routes
-  County Routes
-  Interstate Highway
-  River Mileage from Cooperstown
-  River Mileage from Lathams Corners

Note: The outlined lower portions of the detail maps show the areas of overlap with the next map in sequence. River mileages are approximations.

RIVER NOTES

These rivers become more hazardous as the water rises.

Topography such as islands and shoreline can change from day to day as can obstacles such as fallen trees, debris, etc.

Even though these rivers are generally considered to be flat water, knowledge of some whitewater techniques is necessary for safe canoeing. Contact your local Red Cross chapter for information on canoeing.

Approved lifejackets must be carried in all boats by law. They should be worn.

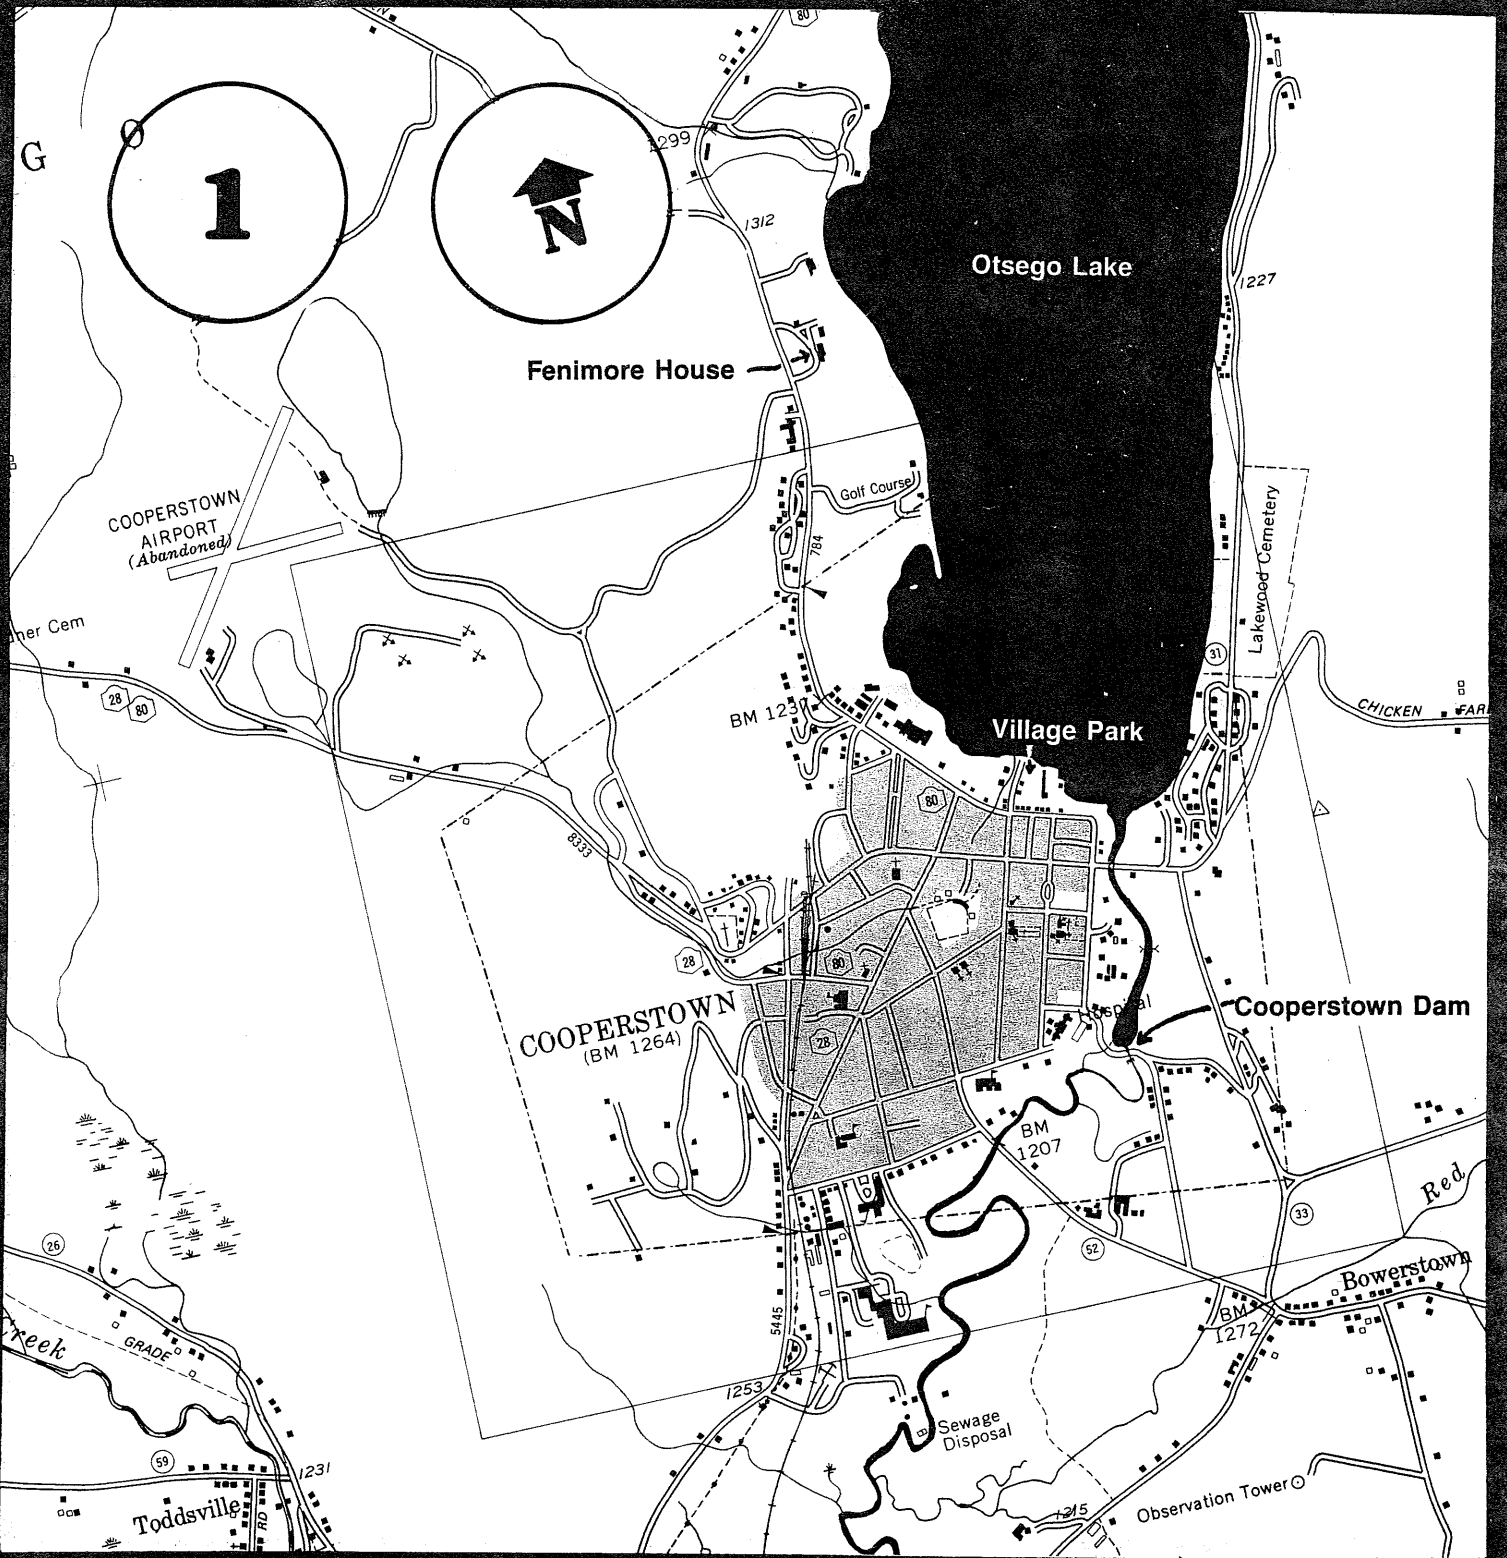

Portage when there is any question of the safety of running any obstacle.

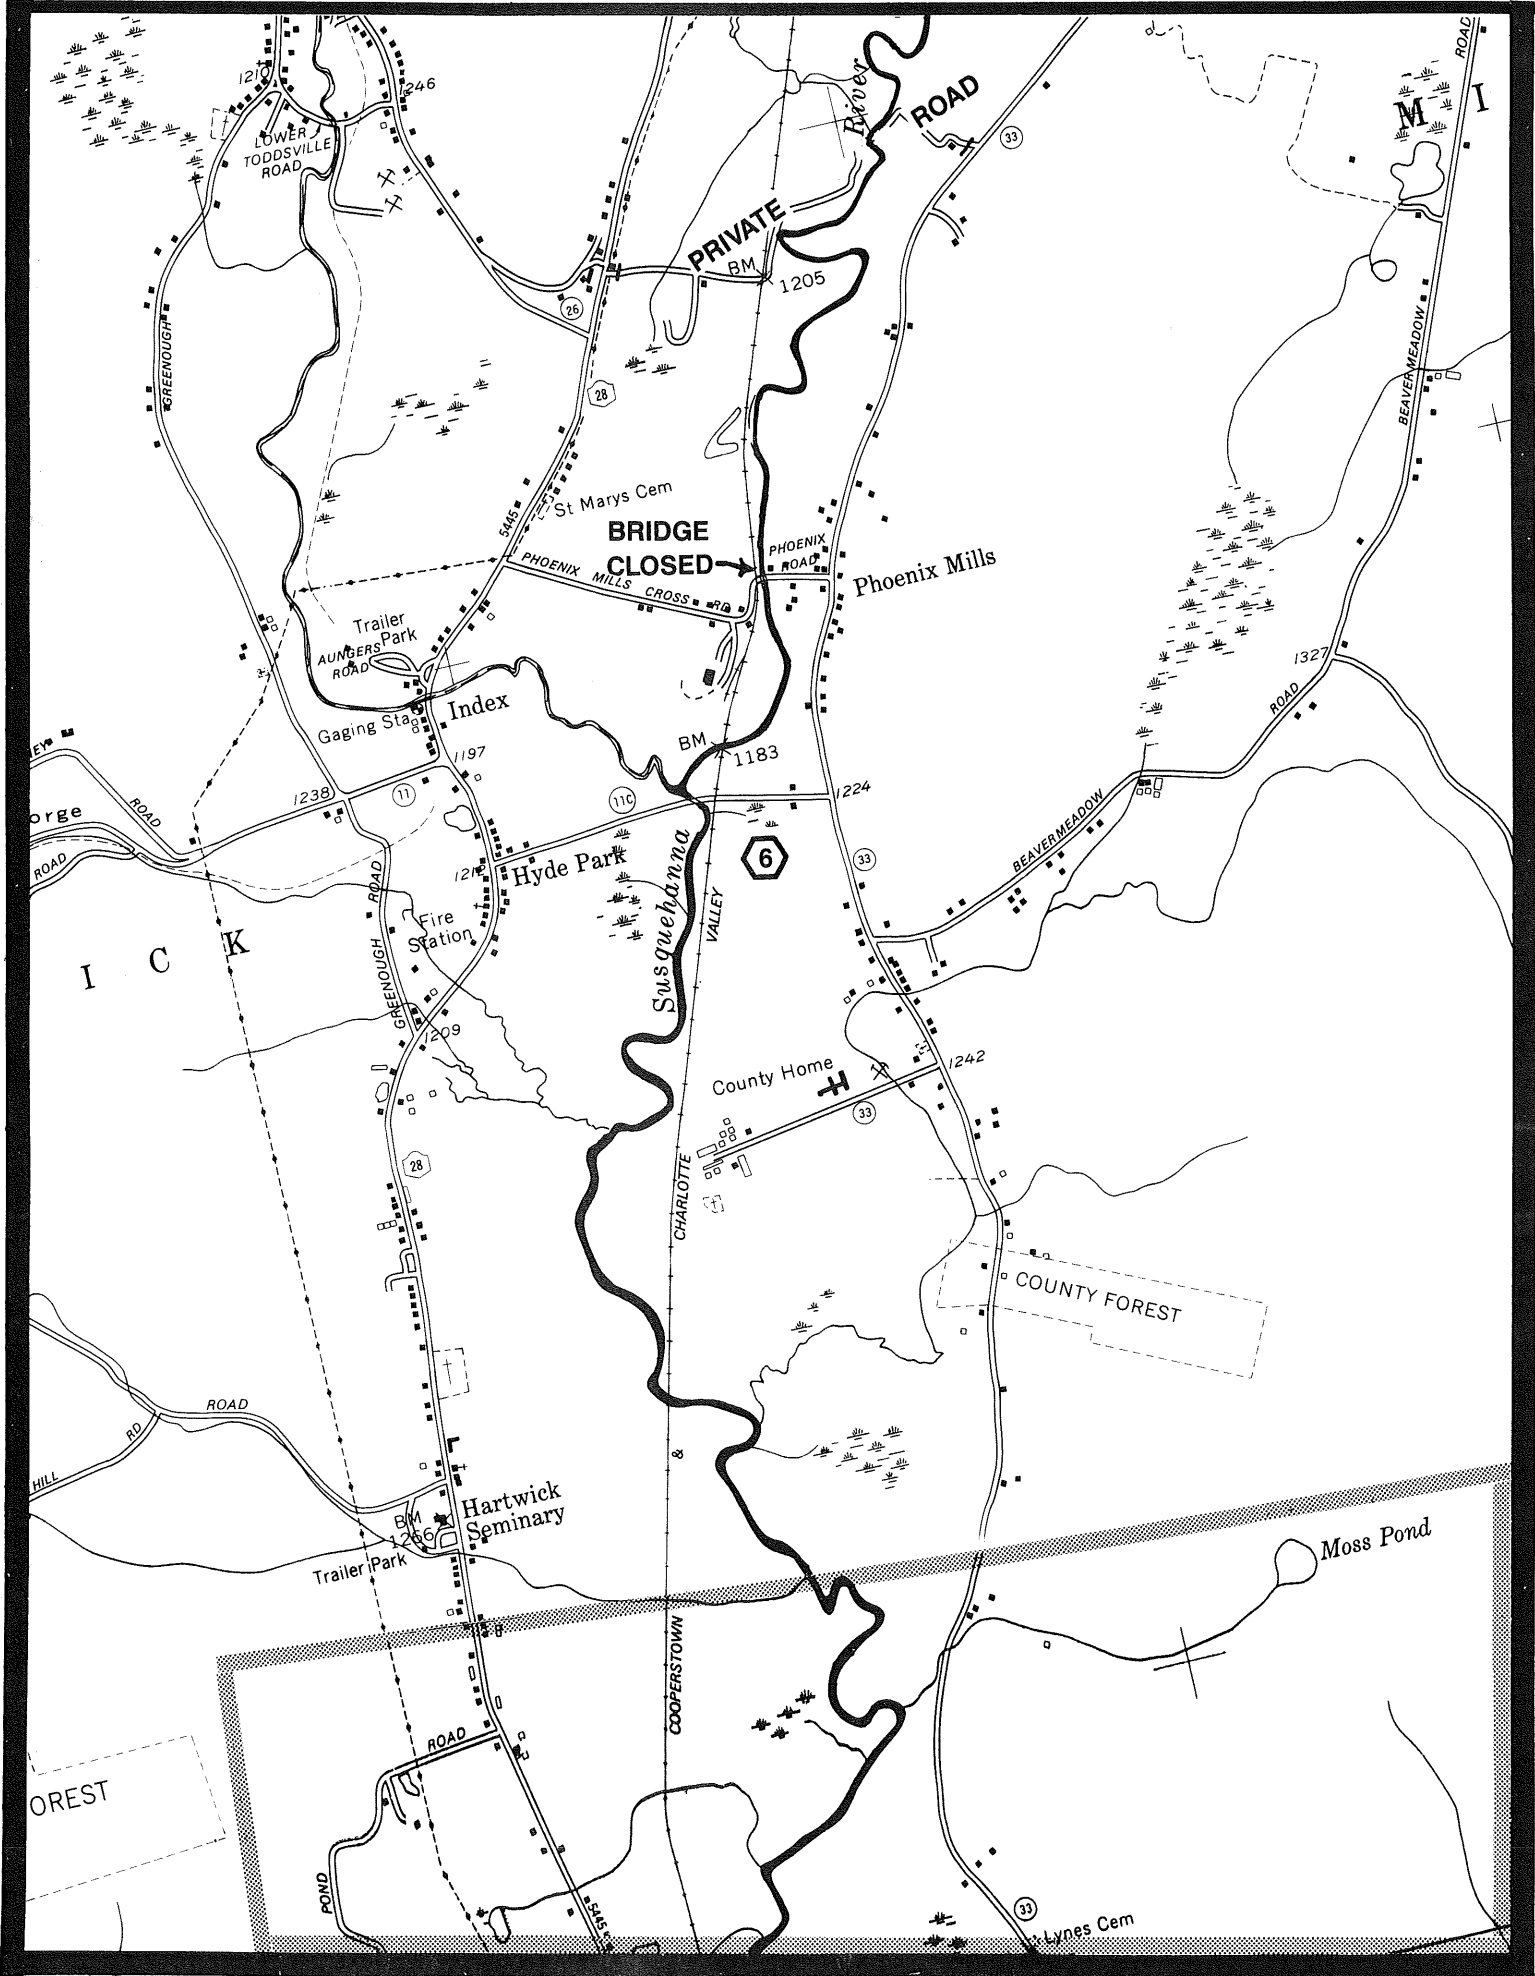

The following must be portaged: Cooperstown Dam, Goodyear Lake Dam, Oneonta Dam.

Please respect the rights of landowners along the river.

Please carry all litter out with you. Help keep our rivers clean.
